

CASE HISTORY REPORT

INPRO/SEAL

Company name: **Deceuninck** Location: **Diksmuide-Belgium**

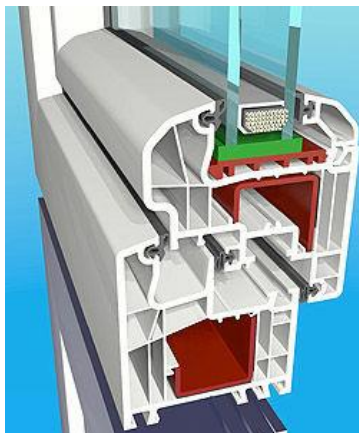

Industry: **Plastic Compound**

Deceuninck designs and produces PVC/vinyl window and door systems and building profiles for applications such as windows, doors, shutters, wall cladding.

Plastic Deceuninck Compound n.v.in Diksmuide (Belgium) produces additives (PVC compounds). The plant uses a lot of rotary valve with compression packing. The result is a constant powder leakage.

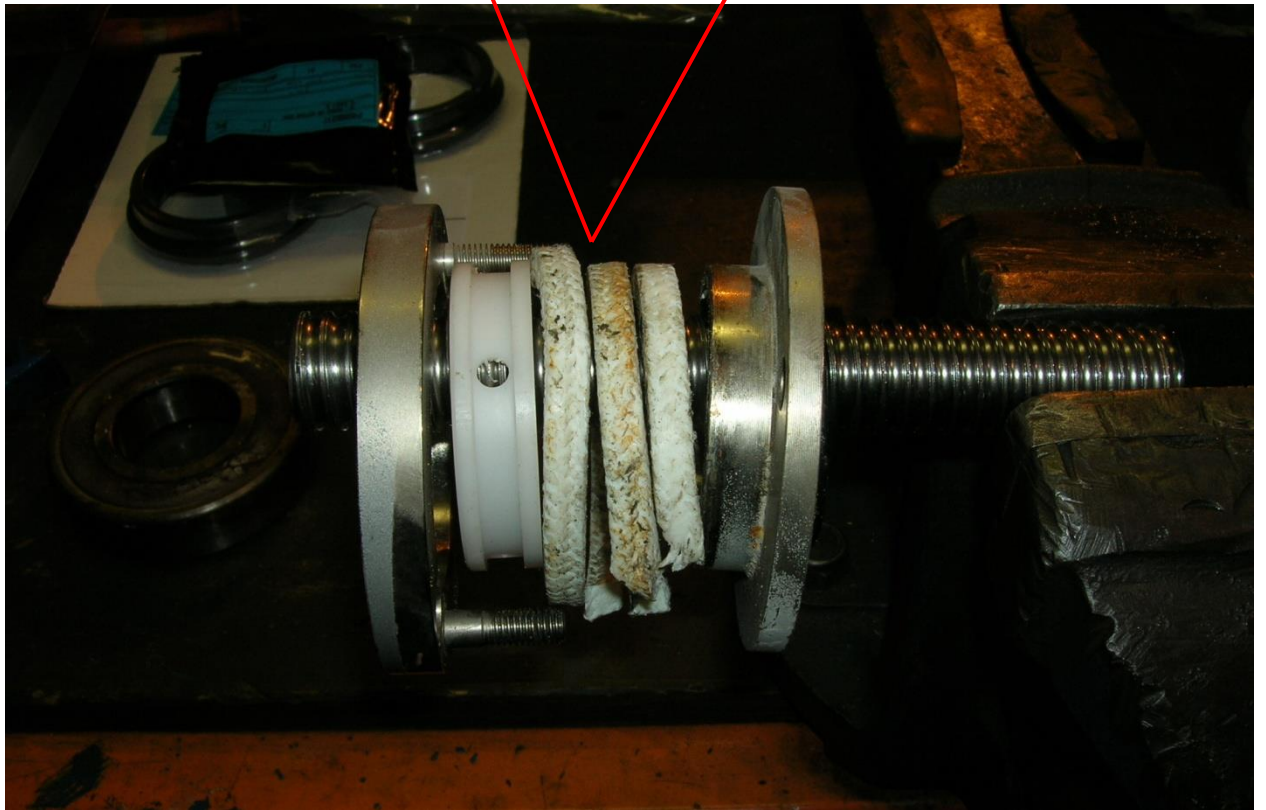

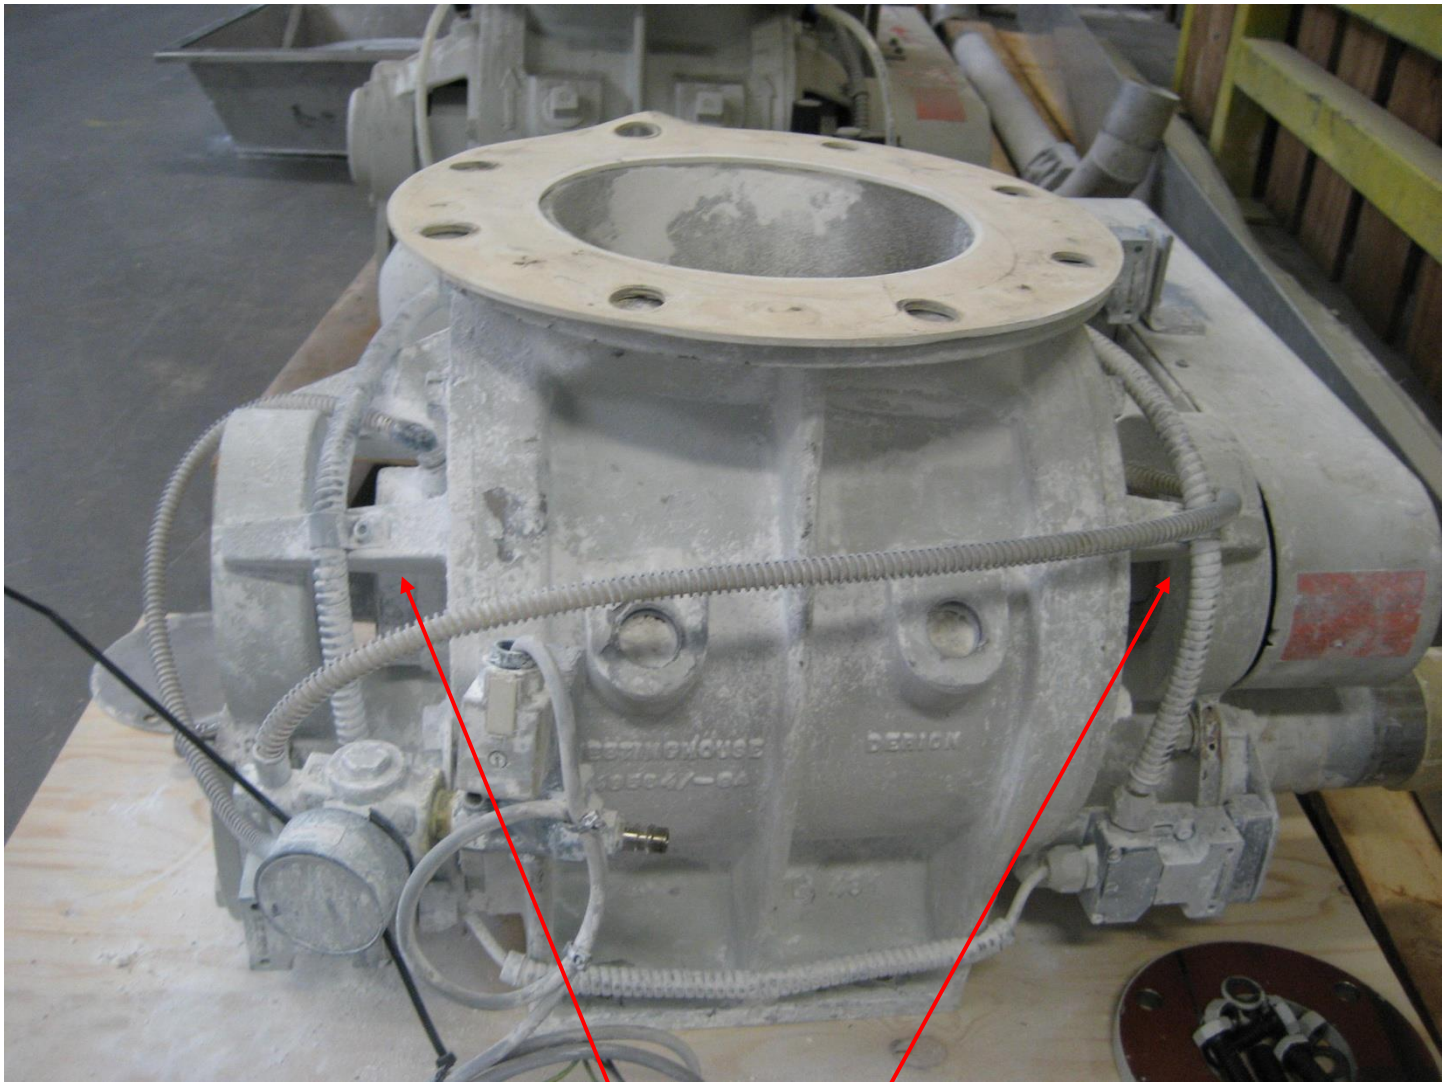

Deceuninck installed a set of 2 AIR MIZER, with a perfect result.

Deceuninck Compound Diksmuide has decided to standardize the AIR MIZER on most of their ROTARY VALVE.
