

CASE HISTORY REPORT

INPRO/SEAL

Company : **SINCLAIR**

Location: **CASPER - WY - USA**

Industry: **REFINERY**

Application : **Cooling Tower Gearbox**

SINCLAIR refinery in Casper has installed Inpro/Seal Bearing Isolators on Amarillo gearboxes, to solve a water contamination problem. In those days Phil Parkinson worked in the repair shop to install the labyrinths.

"A few years ago when we installed the isolators I was the machinist and mechanic installing them, and they have worked great. We do semi-annual inspection on the gearboxes with no sign of contamination. Feel free to use me as a resource. Thanks"

Phil

Phil Parkinson's is now the Maintenance Manager at the refinery
